## Tax Assessor Dave Stewart In Race

David Stewart, Palm Beach County Tax Assessor this week made the following announcement: "I will be a Democratic candidate for the office of Palm Beach County Tax Assessor subject to the May Primary.

"I believe that 13 years of experience as a deputy assessor and as County tax assessor qualify me for the position. If the voters of Palm Beach County elect me as their tax assessor I will make every effort to give them the fairest and most equitable tax roll that it is possible to make. Every taxpayer who feels his assessment is too high will have every opportunity to be heard and I will do my best to assess all taxable property as equally as it can be done.

"I will stress strict honesty and courteous service to the public. Economy will be emphasized in the operation of the office and tax money will be spent as wisely as possible. I will devote all of my time to the job of tax assessor. Neither myself nor my employees will engage in anything that would conflict with the job."

A native Floridian, he was born in LaBelle on Sept. 17, 1919. He graduated from LaBelle High School, and from the University of Florida with a B. S. degree with honors; attended Notre Dame University Midshipman School in 1942.

Stewart served as a commissioned officer in the U. S. Navy from October 1942 to May 1946, on duty with the 3rd and 7th Fleets in the South Pacific during 1944 and 1945. He was released to inactive duty in May 1946, with the rank of lieutenant.

Prior to his appointment to succeed Jas. M. Owens, Jr., as assessor, he had been employed in the assessor's office for 13 years, and had been chief real estate appraiser for eight years.

He is an active member of Calvary Methodist Church in Lake Worth, a church school teacher, and a steward of the church; and is a member of the Phi Kappa Phi national scholastic honorary fraternity.

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67... a \$37.50 Bond will be worth \$67.34... and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90... in 9 years and 8 months, you'll have \$2,850.70... and in 19 years and 8 months, \$6,872.45! This Plan is one sure way to save because it saves something out of every check before you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. It's safe, it's sure, it's automatic. And you will be helping yourself and your country!

If you want to be paid  
your interest as current income—  
invest in 3% Series H

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. ## Broward County Grows Unbelievably

TAMPA — From the Model A deep in 1928, license tag sales in Broward County jumped a fantastic 2479 percent by the fish tail fin days of 1958.

This was one of the eye-opening statistics revealed in a check of State Motor Vehicle Commission records in Tallahassee and reported in the January issue of "The Florida Traveler," official publication of the Peninsula Motor Club. Broward sold 6,188 tags in 1928; and 159,620 in 1958. In 1948, the county sold only 32,747 license plates.

Florida's dramatic growth is further shown in tag sales. In 1928, only 365,831 were sold in the state. By 1958, the annual output was 2,346,775, a fabulous 541 percent hike.

Figures for 1959 are not yet available, but Mrs. Ina S. Thompson, Motor Vehicle Commissioner, said sales would pass the two and a half million mark. A supply of 2,600,000 of the 1960 edition have been stocked.

1960's colors were very carefully chosen to be blue and yellow. The color combination represents nothing more nor less than the blue waters of the Gulf of Mexico and that big yellow moon over Miami.

# Picture of a Promise

*Sure, she's a grand old flag!  
That's why we salute her.  
That's why we pledge allegiance to her.*

That pledge, in its simplest terms, is another way of saying, "Count me in. You're my country and I love you and need you. Your problems are my problems, and I'm with you all the way."

Your country's biggest single problem is the perpetual responsibility for keeping the peace its people want. You can help with this problem by remembering this:

*Peace costs money. Money for military and industrial strength. Money for science and education. And money saved by individuals — by you — to help keep the economy strong. Bonds provide this money.*

## Christian Science Group Of Canal Point

Universal brotherhood will be a theme dealt with at Christian Science services this Sunday. Peter's awakening to a higher sense of brotherhood highlights the Lesson-Sermon entitled "Spirit."

The account of Peter's meeting with the centurion called Cornelius will be read, including the following: "Then Peter opened his mouth, and said, Of a truth I perceive that God is no respecter of persons: But in every nation he that feareth him, and worketh righteousness, is accepted with him" (Acts 10:34, 35).

A correlative citation from "Science and Health with Key to the Scriptures" by Mary Baker Eddy states in part: "God gives the lesser idea of Himself for a link to the greater, and in return, the higher always protects the lower. The rich in spirit help the poor in one grand brotherhood, all having the same Principle, or Father; and blessed is that man who seeth his brother's need and supplieth it, seeking his own in another's good" (518:13-19).

(continued from page 1)  
ing the year in the form of dividends amount to \$459,882 for an increase of 27% at a 4 1/4% rate.

An increase of 20%, \$1,606,274, in the home mortgage portfolio, brought the total sound quality home loans held by the institution to \$9,556,664.

These figures demonstrate the gain to the savers, the home owners, and to the community. To add people to a community is an economic benefit; to make these new residents homeowners adds a substantial moral advantage.

The local Federal Savings Association, like others in Florida, made substantial gains despite the tightest home credit market as well as intense competition for savings, in years.

Everglades Federal Savings is currently paying 4 1/4% dividends to saving account holders, the highest in the State of Florida. This organization has consistently led the way in paying maximum dividends.

## Boy Scout Week Is February 7-13

Somewhere in America there may be someone who doesn't know that February 7 to 13 is Boy Scout Week. Everyone should know about it this time. We want them to share in our birthday party.

Boy Scout Week 1960 is important for another reason. It's the fiftieth anniversary of Scouting in America.

Scouting is good, wholesome training for youngsters. While building character, it teaches them such worthwhile things as hiking, camping, wood lore and handicraft. In addition, it's Merit Badge program teaches many vocational arts.

But more important, through our organization we are learning what it means to become good citizens. It teaches us loyalty to flag and country and gives us an interest in basic freedoms. Our theme for 1960 is Onward for God and my Country.

## Lions To Assist In Beautification

The Canal Point Lions at the weekly dinner meeting voted to cooperate with the Garden Club in the beautification project of the triangular plot of land lying between the new US 98 and the old highway east of Canal Point.

Although this land is privately owned, the clubs have received permission from the owners to beautify it for use as a public park. Electric light bulbs will be sold by members of both clubs to raise funds for helping to finance the project. The lions will clear the land of old shacks and weeds to prepare it for sodding. Garden Club members will be in charge of the planting of ornamental shrubs and trees and the landscaping in general. Picnic tables and benches will also be installed.

President James Gibson appointed J. W. Reppe and J. G. Weeks to work with Mrs. James Miller and Mrs. Anderson Chastain, representatives from the Garden Club, on this project.
